## DECKING

**COMPOSITE DECKING**  
PRODUCT INFORMATION

Make your deck dreams come true with our durable, low-maintenance composite decking. Offering several eco-friendly collections, we make it easy to find a style that satisfies any taste and budget. Our unique polypropylene and hardwood composite material outperforms other composite and PVC decking products. Featuring innovative and patented technologies, our decking provides unmatched strength and structural integrity.

## FEATURES & BENEFITS

- Manufactured using recycled content
- Multiple ways to easily install including Step-Clip system that saves up to 50% installation time
- Custom length program available
- CoolTrac ensures superior heat and slip resistance
- Designed to stand up to the harshest weather conditions
- 25 Year Limited Warranty

## CoolTrac™

CoolTrac™ material composition provides 136% more slip resistance\* and keeps boards up to 18% cooler than traditional composite decking\*\*.

\* Based on wet board testing complying with ANSI/NFSI standards.

\*\* Based on testing of similar deck colors.

## Step-Clip®

Step-Clip delivers a quick, easy and efficient deck installation solution that locks boards into place with a single step — no special tools needed.

## Poly-Pro Advantage™

The Poly-Pro Advantage is a unique polypropylene and hardwood composite that outperforms other composite and PVC decking products.

### HARDWOODS™

Golden Teak

Brazilian Cherry

Tropical Walnut

Garapa Gray

### LANDSCAPES™

Coastal Gray

Mocha

Slate

### RESORT™

Acadia Gray

Aspen Teak

Cabo Brown

Starter™

Siesta™

Square Edge™

## CoolTrac™ Advantage

DuraLife Decking is engineered to absorb heat more efficiently than other brands of decking and provides superior slip resistance in both wet and dry conditions.

### Heat Resistant

Our decking products are over 18% cooler than traditional composite decking.\* So even in the most extreme heat, our deck boards can be walked on with bare feet.

*\*Results based on testing of similar deck colors — tested via ASTM D4803.*

### Slip Resistant

Our decking is 136% more slip resistant than competitor's products when wet and 56% more slip resistant than competitor's products when dry.\*\*

*\*\*Based on testing complying to ANSI/NFSI standards.*

## Step-Clip®

DuraLife's patented Step-Clip system **reduces deck installation time by up to 50%**. No spacing, extra measuring or grabbing for fasteners — and less time bending up and down. Decking can be laid out in advance to ensure that its appearance is pleasing to the homeowner, and the contractor can install special cut boards around posts and other obstructions after all other boards are in place.
