

# DuraLife®

DECKING

**RESORT COLLECTION™**  
PRODUCT INFORMATION

The Resort Collection features three warm neutral colors with subtle tone-on-tone linear grain variegation. This eco-friendly decking, composed of 78% recycled material, is available with the MVP™+ square-edge profile. Compatible with DuraLife Decking's Step-Clip® fastener system that allows for easy installation and featuring CoolTrac™ to keep deck boards significantly cooler than traditional composite decking while providing superior slip resistance.

### FEATURES & BENEFITS

- Contemporary, warm neutral colors
- Subtle tone-on-tone linear grain variegation
- Eco-friendly — composed of 78% recycled material
- Modern square-edge profile
- CoolTrac ensures superior heat and slip resistance
- Step-Clip fastener system makes for easy deck board installation
- 25 Year Limited Warranty

### CoolTrac™

CoolTrac material composition provides 136% more slip resistance\* and keeps boards up to 18% cooler than traditional composite decking\*\*.

\* Based on wet board testing complying with ANSI/NFSI standards.

\*\* Based on testing of similar deck colors.

### Step-Clip®

Step-Clip delivers a quick, easy and efficient deck installation solution that locks boards into place with a single step — no special tools needed.

### Poly-Pro Advantage™

The Poly-Pro Advantage is a unique polypropylene and hardwood composite that outperforms other composite and PVC decking products.
